PROFESSIONAL SUMMARY

AI Automation Engineer specializing in designing and deploying production AI systems that combine LLMs, workflow automation, enterprise integrations, and structured knowledge. Experienced in architecting conversational AI, designing AI-ready knowledge systems, and building AI-assisted documentation and engineering workflows that power enterprise self-service, enterprise search, and AI-enabled customer support.

Established the AI Automation function at Search Atlas from the ground up, leading enterprise AI integrations across **12 internal services** and **11 engineering teams** (*actualiza a 13 si esa es la cifra correcta*), increasing chatbot resolution from **~30% to ~70%**, and expanding the production knowledge base from **250 to 2,056 structured, AI-ready articles**.

PROFESSIONAL EXPERIENCE

Search Atlas

AI Automation Engineer

Remote | Jun 2025 – Present

Established the company's AI Automation function from the ground up, designing production AI systems, enterprise integrations, conversational AI, and knowledge infrastructure.

- Led the enterprise integration of **Fin AI** across **12 internal services** and **11 engineering teams**, delivering **19 live Data Connectors** and **17 operational Procedures**.
- Authored the **V1 Canonical Runtime Schema**, defining the shared data contract adopted across engineering teams for production AI integrations.
- Redesigned the conversational AI architecture from first principles, expanding the Guidance Prompt library from **0 to 78** while increasing chatbot resolution from **~30% to ~70%** in under two months.
- Built AI-powered automation systems using **Claude Code, Python, Playwright, SQLite, and n8n** for knowledge-gap detection, AI-assisted documentation, content

generation, quality assurance, browser automation, customer recovery, and operational reporting.

- Expanded the production knowledge base from **250** to **2,056 structured, machine-readable articles**, improving governance, searchability, and AI readiness while transforming documentation into production knowledge infrastructure.
- Led cross-functional AI initiatives spanning **Engineering, Product, Customer Support, and AI Operations**, driving enterprise automation and knowledge engineering projects across multiple business domains.

Keywords Studios

Localization QA Specialist

Katowice, Poland | May 2023 – May 2025

- Performed linguistic and functional QA for LATAM Spanish localization across commercial video game releases.
- Validated translation quality, cultural adaptation, UI implementation, and localization consistency.
- Collaborated with international development teams to identify and resolve localization issues.

Additional Professional Experience

Journalism, Higher Education, Publishing

Colombia & Poland | 2005 – 2023

International experience across journalism, higher education, publishing, language education, and assessment. Former Radio Journalist (Caracol Radio / PRISA Group), University Spanish Lecturer, Certified DELE Examiner (Instituto Cervantes), author of *Lee en español*, and founder/editor of two Spanish-language learning magazines.

CORE EXPERTISE

AI Engineering

Large Language Models (LLMs), Agentic AI, Enterprise AI, Conversational AI, Knowledge Engineering, Knowledge Management, Technical Documentation, Retrieval-Augmented Generation (RAG), Prompt Engineering, LLM Evaluation, AI-assisted Software Engineering, Claude Code, Claude Agent SDK, OpenAI GPTs.

Software & Automation

Python, Playwright, SQLite, REST APIs, Browser Automation, Workflow Automation, API Integration, Data Contract Design, n8n.

Platforms

Intercom (Fin AI, Knowledge Base, Connectors, Procedures & Content), ClickUp, Linear, Slack, Notion, GitLab, Google Workspace.

Currently Developing Expertise

LangChain, LangGraph, Advanced RAG, Vector Databases (Qdrant, Pinecone, Weaviate), Flowise, LangFlow, Model Context Protocol (MCP), LangSmith, OpenAI Agents SDK.

EDUCATION

B.A. Journalism & Social Communication

Universidad Sergio Arboleda — Bogotá, Colombia

SELECTED CERTIFICATIONS

- IBM AI Engineering Professional Certificate
- IBM RAG and Agentic AI Professional Certificate
- Build Intelligent Agents Using DeepSeek & n8n — Board Infinity
- AI Agent Developer Specialization — Vanderbilt University
- AI Agents & Agentic AI with Python & Generative AI — Vanderbilt University / DeepLearning.AI
- Generative AI Assistants Specialization — Vanderbilt University
- Prompt Engineering Specialization — Vanderbilt University
- Claude Code: Software Engineering with Generative AI Agents (*In Progress*)

LANGUAGES

Spanish — Native
